UI/UX Designer with professional experience designing user-centered web and mobile experiences for client facing products. Combines a Computer Science background with UX thinking to create intuitive workflows, scalable interfaces, and developer friendly design solutions. Skilled in UX research, interaction design, wireframing, prototyping, and cross-functional collaboration within Agile product teams. Particularly interested in AI-powered and workflow-driven digital experiences.

EXPERIENCE

Junior UI/UX Designer | Meridian Creative Solutions

Jan 2025 - Nov 2025

- Designed user flows, wireframes, and high-fidelity UI solutions for client facing web products, improving workflow clarity.
- Translated user pain points and business requirements into usability focused interface solutions through client discussions.
- Collaborated closely with developers to ensure smooth design handoff, implementation consistency, and scalable UI delivery.
- Created reusable UI components and annotated design specifications to support efficient product development workflows.'
- Iterated on designs through structured feedback sessions, helping reduce revision cycles and improve approval efficiency.

UI/UX Intern | Meridian Creative Solutions

Jul 2024 - Dec 2024

- Created wireframes and interactive prototypes for early stage product features, enabling faster validation.
- Designed user journeys and interface flows aligned with both user needs and business objectives.
- Participated in Agile sprint reviews, cross-functional design discussions, and collaborative problem solving sessions.
- Supported UX documentation, interaction flows, and developer handoff materials throughout the design process.

EDUCATION

Informatics Institute of Technology (Affiliated with University of Westminster, London)

Sep 2022 - May 2026

BSc (Hons) Computer Science

SKILLS

UX & Product Design: User Research, Wireframing, Prototyping, User Flows, Interaction Design, Usability Testing, Responsive Design, Accessibility, Stakeholder Communication, Agile (Scrum)

Technical & Tools: Figma, Photoshop, Jira, Confluence, Excel, SQL, Power BI, Java, Python, React, Node.Js, MongoDB, WordPress, Docker

PROJECTS

PickMe - Personal | UX Research, Workflow Analysis, Figma, Mobile UX

- Redesigned PickMe's ride-tracking experience to improve transparency and reduce rider anxiety during driver arrival.
- Conducted UX research and workflow analysis to identify issues in ETA communication and ride status visibility.
- Designed contextual status updates and ride progress indicators to improve trust and user clarity.

Rose by Basicare - Meridian | UI/UX Design, Design Systems, Mobile-First Design, Figma

- Designed a mobile-first eCommerce experience for a K-beauty cosmetics brand targeting Gen Z and young adult shoppers.
- Created user flows, product discovery experiences, beauty specific filter systems, and responsive UI designs optimized for mobile browsing behaviors.
- Developed scalable design systems and collaborated with stakeholders and developers to support consistent implementation across digital touchpoints.
- Contributed to brand strategy, UX architecture, and AR feature planning to improve product discoverability and shopping confidence.
